## Registration information of Carbon Footprint of Products

| 1. Product information | CR-DG01-15006-A |  |  |
| :---: | :---: | :--- | :--- |
| 1.1 | Registration number | 1.7 Product photo |  |
| 1.2 | Product name | Xerox WorkCentre 5325 Multifunction Printer STD |  |
| 1.3 | Product model | Xerox WorkCentre 5325 Multifunction Printer STD |  |
| 1.4 | Main specifications <br> of product | Print speed: 25ppm black-and-white <br> Paper size: A3 maximum <br> Capable of duplex printing, facsimile and scanning <br> Product Size: $597(\mathrm{~W}) \times 637.5(\mathrm{D}) \times 1115(\mathrm{H})(\mathrm{mm})$ <br> Product weight: 85 kg |  |
| 1.5 | CFP quantification unit | Per unit product |  |
| 1.6 | Date of release | $2015 / 3 / 24$ |  |

| 2. Company Information |  |  |
| :---: | :---: | :--- |
| 2.1 | Company name | FUJIFILM Business Innovation Corp. |
| 2.2 | Phone number | $+81-3-6271-5111$ |

| 3. CFP quantification results, and contents of CFP declration |  |  |
| :---: | :---: | :---: |
| 3.1 | CFP quantification results | $1,300 \quad$$\mathrm{kg}^{\mathrm{kg}-\mathrm{CO}_{2} \mathrm{e}}$ <br> (CFP quantification results can be slightly different from sum of <br> thefollowing breakdown for rounding of fractions.) |
| 3.2 | Breakdown (by life cycle stage, by process, by flow, etc.) |  |
|  | Raw material acquisition stage | 620 kg-CO2e |
|  | Production stage | $34 \times 2{ }^{\text {a }}$ - $\mathrm{CO}_{2} \mathrm{e}$ |
|  | Distribution stage | $50 \times 1{ }^{\text {g }}$ - $\mathrm{CO}_{2} \mathrm{e}$ |
|  | Use \& maintenance stage | $500 \times \mathrm{kg}-\mathrm{CO}_{2} \mathrm{e}$ |
|  | Disposal \& recycling stage | 99 $\mathrm{~kg}-\mathrm{CO}_{2} \mathrm{e}$ |
| 3.3 | Value in a mark, and contents of additional info. |  |
|  |  | <Contents> ${ }^{\text {c }}$ < ${ }^{\text {<Unit for the value in a mark> }}$ |
|  | Value in a mark | 1,300 kg $\quad$ per unit product |
|  | Contents of additional info. | *Calculated by the standard Scenario for Multifunction Printer (EP type) <br> *CO2 emission in the distribution stage assumes North America as the main sales area. <br> *Electric power in the use and maintenance stage is evaluated with the public electric-power-consumption -rate in North America. <br> *The CO2 emission due to printing paper is excluded from the use and maintenance stage. *Print volume is assumed 375,000 sheets. |
| 3.4 | Remarks |  |

| 4. Interpretation of CFP quantification results |  |
| :--- | :--- | :--- |
| 4.1 | Interpretation of CFP <br> quantification results <br> important to reduce size and weight. <br> The use condition in this scenario can be different from the use condition of the <br> user. <br> A choice of the use condition (print mode, print conditions and so on) can reduce <br> the CO2 emission during product usage. |
| $\mathrm{CO}_{2}$ emission in use and maintenance stage is the second largest as $38 \%$. It is <br> important to save energy during product usage. |  |
| Primary data is used in the raw material consumption. Secondary data is used in <br> the parts manufacturing process which might not be reflected our own <br> circumstances because it is difficult to collect the data for thousands of the parts. <br> Please understand this result as the rough estimate according to the reason <br> mentioned above. |  |

| 5. | Conditions of quantification |  |  |  |  |
| :---: | :---: | :--- | :--- | :--- | :--- |
| 5.1 | Name of approved CFP-PCR | Imaging input and/or output equipment | 5.2 | Approved CFP-PCR ID | PA-DG-01 |
| 5.3 | Assumptions of <br> secondary data used | Basic secondary data v.1.01 is preferertially used. Available secondary data (country <br> v.1.04, foreign country v.1.0) is used if the items don't correspond to basic data v.1.01. |  |  |  |

| 6. Verification information |  |  |  |  |  |
| :---: | :---: | :--- | :---: | :--- | :--- |
| 6.1 | Verification method | Product-by-product | 6.2 | CFP system certification No. | - |
| 6.3 | Verification ID | CV-DG01-15006 | 6.4 | Completion date of verification $2015 / 3 / 13$ |  |

| 7 | Remarks | Revised on April 1st, 2021: Implemented the company name change. |
| :---: | :---: | :--- |
