1.1	Registration number	CR-DG02-17073	1.7 Product photo			
1.2	Registration name	Xerox VersaLink B600 Printer				
1.3	Model name / number	Xerox VersaLink B600 Printer				
1.4	Main specifications of product	Print speed (Mono): 58ppm (Letter) Maximum Paper size: Legal(215.9×355.6mm) Capable of print, duplex printing, NFC. Product Size: 427.4(W)x465.5(D)x443.4(H) (mm) Product weight: 22.3kg				
1.5	CFP quantification unit	Per unit product				
1.6	CFP release date	July 27th, 2017

	Value in CFP mark	2,300kg	per unit product			
3.3	Description of additional info.	*Calculated by the standard Scenario for Printer (EP type). *CO ₂ emission in the distribution stage assumes the United States as the main sales area. *Electric power in the use and maintenance stage is evaluated with the public electric-power-consumption-rate in the United States. *Print volume is assumed 2,018,000 sheets. *In this scenario, the CO ₂ emissions from copy papers are estimated 16,000 kg-CO ₂ e at 4.0g per A4 paper. *The CO ₂ emission of printing paper is excluded from the use and maintenance stage. *Bay material acquisition stage 8% *Production stage 0.1% Distribution stage 1%

4. Interpretation of CFP quantification results					
	Interpretation of CFP quantification results	CO2 emission in use and maintenance stage is the largest as 91%. It is important to save energy during product usage. The use condition in this scenario can be different from the use condition of the user. A choice of the use condition (print mode, print conditions and so on) can reduce the CO2 emission during product usage. For example, 520kg-CO2e of the CO2 emissions (approximately 23%) can be reduced if 2-in-1 print is applied to 1,009,000 sheets (50% of the estimated total print volume). Primary data is used in the raw material consumption. Secondary data is used in the parts manufacturing process which might not be reflected our own circumstances because it is difficult to collect the data for thousands of the parts. Please understand this result as the rough estimate according to the reason mentioned above.
